

The Grand Lodge of Minnesota F. & A. M., by an overwhelming vote condemned yesterday that branch of the Scottish Rite known as Cerneauism, and hereafter Minnesota, like New York, Pennsylvania, and the other States of the southern jurisdiction in general, will have nothing but "straight" Masonry.—Commercial.

Deaths resulting from La Grippe, or pneumonia, are reported from all parts of the country. One great trouble is caused by many people not paying proper attention to the first attack of the disease, apparently thinking it nothing but a cold. It has been stated that careful attention to the first symptoms will prevent any serious results.

One of the lawyers who assisted Judge Longenecker in the prosecution of the Cronin murderers is reported as having become violently insane, and is confined in the asylum of San Antonio, Texas. He had left Chicago to go South for his health, and while coming from Dallas to San Antonio, he went stark mad, and is possessed of the hallucinations that the clan-na-gael are after him with knives dripping with blood.

It is reported that in Findlay the truant officer does not find his official duties as pleasant as they were at first expected to be. He finds many families in such destitute circumstances that the children are absolutely compelled to remain out of school and seek employment in order that the wolf of want may be kept from the door. A number of manufacturing establishments find it absolutely necessary to employ child-labor. This is especially true in the case of the glass factories, and in order to relieve the manufacturers, and also give the children the benefit of the schools, there will be a number of night schools established.

Mrs. J. Ellen Foster, of Iowa, who is in Cleveland to attend the convention of the Non-Partisan W. C. T. U., explained the object of the new organization to be the promotion of temperance reform, with no side issues. She said she believed that women should be allowed to vote, and was in favor of dress reform, but these things, she said, would not be sought for by the Non-Partisan W. C. T. U. The recent political phase of the W. C. T. U. work, she said had driven many workers from the old order. The new order would profit by the mistakes of the old, and would wish all God speed in the work of reform.

The Legislature of Mississippi insults the patriotic people of the country by creating a new county, to be named "Jeff Davis." Its county seat will be "Cleveland." To be consistent, the other towns should be named "Wiz," "Winder," "Andersonville," "Libby," "Salisbury," "Cahaba," etc., and its boundaries should be marked by "deadlines." Some people have talked vaguely about Mississippi "being disgraced by the Sullivan-Killrain fight." On the contrary, we think that performance above the average of respectability in a community distinguished mainly for repudiation, rebellion, negro massacres, political thuggery, and adoration of treason.—National Tribune.

The Washington Herald reviews the story about Secretary Blaine's resignation, and says: "The death of his son, Walker, it is believed, will furnish an additional and very strong reason to Mr. Blaine for quitting at once of his place in the State Department. Not only is Walker's death an irreparable personal loss to his father, who was greatly attached to him, but in the discharge of his duties as Secretary of State, Mr. Blaine found his son an invaluable assistant whose place it will be impossible to fill. Mr. Walker Blaine had the confidence of his father to a degree which naturally no one could obtain, and was thus able to relieve the Secretary of State of a large amount of troublesome work which will now necessarily fall upon him."

C. H. & D. R. R. Collision.

A terrible accident on the C. H. & D. R. R. at Cincinnati last Friday night, brief mention of which was made in our Saturday morning edition, resulted in the loss of five lives and the injury of several more.

A slow accommodation train consisting of one baggage and two passenger coaches, was approaching College Hill Junction, a suburb of Cincinnati, when the Chicago vestibuled train, running at a terrific rate of speed and drawn by the most powerful engine on the road, collided with the rear coaches, and went crashing through the train and the coaches were immediately enveloped in flames.

The accommodation train was in charge of conductor Fred Wetherby, whose residence is in Toledo, and who has many friends in Perrysburg. Nothing was found of him until after the train men had worked their way through the burning debris, and found the upper part of his charred body, his hat badge at his side, and his ticket punch in his hand. A few papers in his inside pocket-book established his identity.

The accident was caused by a rule of the railroad company being disregarded by an operator at the Carthage block station, who is a youth of 17 years, and who took charge of the telegraph station on the sixth of the present month, and is therefore lacking in experience, and not guilty of any willful neglect of duty. The Cincinnati Enquirer says:

In an air-tight box all that was mortal of Conductor F. W. Wetherby were last night shipped to Toledo, consigned to the care of his distracted relatives. With the body as a guard of honor went a deputation of conductors, who will accompany it to the late residence and take part in the funeral ceremonies. Conductor Wetherby was insured in the Railway Official's and Conductor's Accident Association, headquarters in Indianapolis, for \$2,000. W. K. Bellis, Secretary, yesterday morning mailed \$250 to the widow as a funeral benefit, and \$1,750 was sent to Superintendent Neilson, of the C. H. & D., to be delivered to her in person.

Circuit Court.

January Term of the Circuit Court was in session three days, commencing on the 6th, when the Gripper enjoined them from further proceedings, and it stood so adjourned until the 20th. The Hon. The following is a list of the cases left over, and which are now receiving the attention of the court:

Mrs. John Yeager.

A splendid woman is gone. One whose purity of heart, Christian fortitude and roundly modeled character shed throughout the circle in which she moved an influence for good.

No selfish trait marred the beautiful symmetry of a life devoted to the good of those around her.

Her heart went out unreservedly to the distressed and suffering in all the walks of life.

Her hand was as open as her heart was sympathetic.

She was ever ready to respond to the call of help from those languishing on beds of pain, and minister to the wants of suffering in the lowly walks of life.

No one ever applied to her for assistance in vain. She was ever ready to respond at all hours of night, whether amid storm and darkness, in winter's cold or summer's sultriness, to the call of distress and her very presence imparted consolation, while her kind words and cheery smile dispelled gloom and gave inspiration to hope. Many a family mourns the departure of this loving woman, many a family will miss her familiar face and her helpful ministrations.

She was a model woman. Whether as wife, mother or friend, she developed in a remarkable degree the same loving, tender, christian, equitable character.

The behest of duty in every department of life became to her a pleasure, and her earnestness and devotion in discharge of that duty were unswerving.

The memory of her grand life so filled with good deeds and benisons, will long live in the hearts of those who benefited by her presence among them.

It is a tribute to her worth more enduring than marble or bronze—a monument more permanent than the art of the sculptor or the work of the artisan.

She will live in the affections of those who knew the great breadth of her unselfish devotion, her Christian virtues, her untiring faithfulness in contributing her share to the welfare of others.

The memory of her kind heart and generous hand will not soon pass away. In her death a noble woman has gone from our midst.

Mr. William T. Price, a Justice of the Peace, at Richland, Nebraska, was confined to his bed last winter with a severe attack of lumbago; but a thorough application of Chamberlain's Pain Balm enabled him to get up and go to work. Mr. Price says: "The remedy cannot be recommended too highly." Let anyone troubled with rheumatism, neuralgia or lame back give it a trial, and they will be of the same opinion. 50 cent bottles for sale by A. R. Champney.
